**S**TATE SCIENCE DAY is the final competition for more than 1,150 students in Ohio's largest and most influential STEM education program. Attending State Science Day is a significant event in the academic life of these young students. Local, District and State Science Days prepare students for success in college and in the 21st Century workplace through project-based, real world learning. Since 1949 State Science Day has helped more than 60,000 students develop effective skill sets for creativity and innovation, critical thinking and problem solving, and communication and collaboration. This year's event honored students from 300 schools from 66 Ohio counties with scholarships and awards valued at more than \$3.7 million from nearly 100 sponsors.
