

Dr. Buket Barkana is the Margaret F. Donovan Chair for Women in Engineering and Associate Professor of Biomedical Engineering at the University of Akron. She received her B.Sc. in Electrical and Electronics Engineering from the Anadolu University in 1994 and her M.Sc. and Ph.D. from the Eskisehir Osmangazi University (ESOGU), Turkey in 1997 and 2005, respectively. She worked as a full-time faculty member at the University of Bridgeport, Connecticut (2007 - 2023), Anadolu University (1995-1999), and ESOGU (1999-2001) in Turkey. She has developed and taught undergraduate and graduate-level courses in the electrical, computer, and biomedical engineering departments. She also taught online electronics and information engineering courses at Wuhan University of Science and Technology, China, between 2019 and 2023. Dr. Barkana is a recipient of several NSF funds to improve engineering and STEM education for underrepresented and underserved students. Her research interests span signal and image processing, computer-aided classification and diagnosis models, and affective learning. She serves as an Associate Editor of Computational Intelligence, an International Journal-Wiley, and has served on the technical committees of many national/international conferences. She is a member of IEEE Women in Engineering, NSF INCLUDES National Network and Sigma Xi.
