

Dr. Endia (Santee) Crabtree is a Senior Clinical Risk Scientist at Boston Scientific, specializing in the comprehensive evaluation of minimally invasive surgical medical technologies. Her expertise lies in assessing the clinical benefit, risk, and performance profiles of these technologies throughout their lifecycle. Dr. Crabtree also serves as a subject matter expert in specific device families and clinical risk deliverables.

In addition to her role at Boston Scientific, Dr. Crabtree is a Board Trustee, Industry At Large with The Ohio Academy of Science. She has demonstrated her commitment to advancing the field by holding leadership positions in various professional societies dedicated to promoting diversity, equity, inclusion, and belonging in the sciences.

Dr. Crabtree holds a Ph.D. from the University of Cincinnati, an M.L.A. from The Johns Hopkins University, an M.S., and B.A. from the University of Michigan-Flint. She has also completed two cancer survivorship postdoctoral fellowships at the University of Cincinnati Cancer Center and Cincinnati Children's Hospital Medical Center.
